21 Century Bathing Revolutionary Concept

Shower, Nothing Less than Bodycare

Skin and hair problems such as skin allergy and split ends are common among city people, and they can be more serious to fragile kids and the elderly. But have you ever imagined that the main crux behind could be the quality of tap water?

Secret of Healthy Skin and Hair - Better Shower Water

Most tap water is basically safe, but it may be repolluted by water tanks and pipes and thus contains rust, silt, chlorine, fluorides, heavy metals, etc. If you do believe that your skin will absorb the nutrients in skincare products, then you have to believe that it'll also absorb the contaminants in bad water.

Repolluted Tap Water May Contain:
Rust, silt, chlorine, fluorides, acids, organic contaminants, odour and colour, heavy metals, chemicals

Bathing Revolution : Shower Is More Than Cleansing! Diamond Spa Gives You Head-to-toe Treatments

To solve the problem, experts labouriously spent 20 years in researches and brought us a revolution - Diamond Spa Home Aqua-Therapy System. This cut edge device turns tap water into Health Water rich in Vitamin C. Despite merely cleaning your body, every shower becomes a treatment, pampering even the most neglected parts such as elbows and ankles.

With your skin and scalp conditions improved, you'll have to do less skincare and haircare, therefore saving money, time and troubles. It also provides your whole family a daily enjoyment of having spa at home.

Diamond Spa's significant functions include:

1. High Density Filtron™ Filter: Filters out contaminants 10 times finer than a strand of human hair such as silt, rust and heavy metals.
2. Multi-layer Filter: Completely removes skin-damaging chlorine and chemicals.
3. Specially Designed Ceramic Beads: Made with magnetic ceramics and mineral stones, breaking water molecule clusters into the smallest possible size*.
4. Shower Head with Vitamin C: Antioxidant Vitamin C penetrates deep into the dermis of skin and scalp, promoting moisture lock-in and repair ability, and thus provides defence against aging.

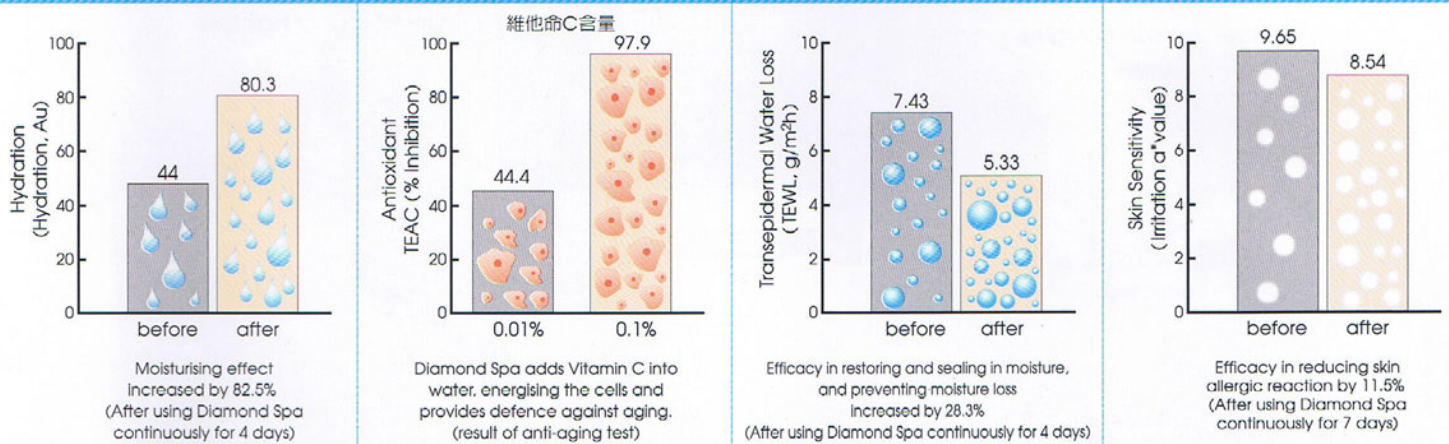

It's Proved by Laboratory Tests

Cooperated with dermatologists, we've conducted a test by Multi Skin Analyser MC750 from Germany. The result showed that Diamond Spa Water, comparing to common tap water, had a better performance in:

- Raising Hydration by 82.5%
- Reducing Moisture Loss by 28.3%
- Reducing Skin Allergic Reaction by 11.5%

Diamond Spa glowing skin and shiny hair is a dream within reach !

Resources : The above laboratory reports were from Diamond Scientific Research Centre

They've All Experienced It!

Teng Lee Ling Accountant

💧 I belong to the dry skin category. After using Diamond Spa for less than three months, I have observed immediate effect as **my skin no longer peel off easily** and is becoming more supple than ever. Now, I don't even have to use any moisturizer because Diamond Spa has already offers me the best spa treatment from head to toe. Last time, my hair is also very dry and always causes split ends. After using Diamond Spa, my hair has become silkier and easier to maintain. I also utilize the Diamond Spa for face wash, especially during my menstrual period. The spa is able to **clear off my pimples within days**. 💧

Chen Yuit Leong Restaurant Employee

💧 My mother's skin is filled with age spots and freckles. After using Diamond Spa, **the spots have become lighter** and she is delighted. Prior to this, she has tried a lot of different skin care products, but none of them shown any improvement. Now, even her **wrinkles are not as obvious**, we managed to save a lot from buying personal care products. 💧

Cheong Kah Yunn Accounts Executive

💧 My son likes to play in the water. Upon installing Diamond Spa, I feel very comfortable letting him enjoy his bath. **Diamond Spa will not irritate his eyes** while regular water does, which when serious, could cause redness to his eyes. But with Diamond Spa, this problem does not happen. Even when he is in his napkin, **it will not cause any skin irritation**. 💧

Solve your skin and hair problems once and for all !

Now with healthier water for healthier families, you no longer have to shower with normal water. Hurry! Install a Diamond Spa Home Aqua-Therapy System to pamper your body! Let your family enjoy a convenient, cost-effective skincare and haircare solution each time they shower now!
